

New Residential Construction

Atlantic City, NJ

Typical Front Elevation

City View

Atlantic City, NJ

This development features two-story townhouses over garages. The product mix is designed for work-force housing and will be priced accordingly. The design features a classic "beach" look and is designed to meet NJ / Federal *green* and *energy star* standards.

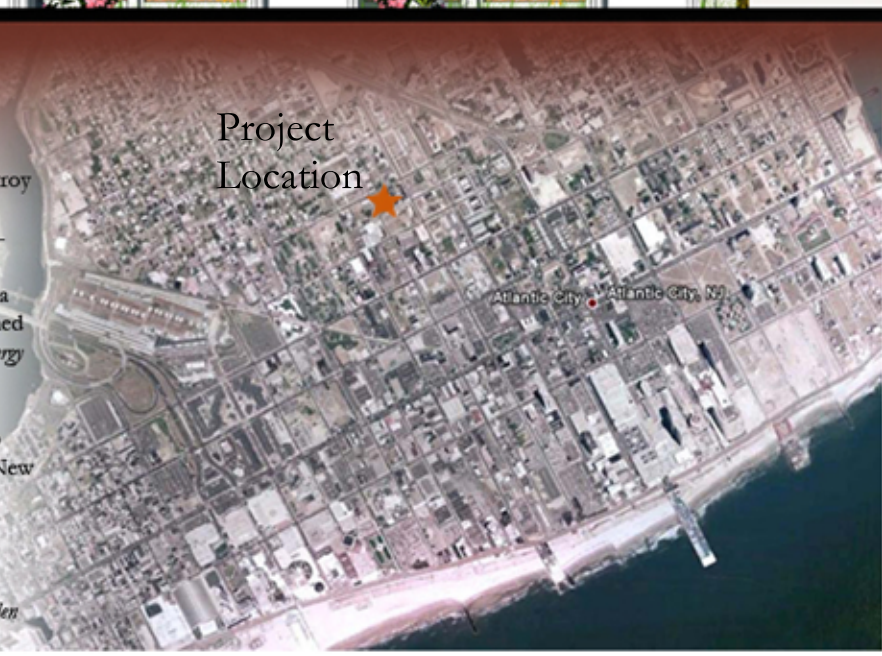

The development is a partnership between private entities and the New Jersey Chamber of Commerce.

Residential - 24 du

18 du @ 1,300 sf / 2 car garage

6 du @ 1,500 sf / 1 car garage / den
